## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Norman et al. discloses an organic electroluminescent device which comprises a pair of electrodes 13, 40, and a layer structure provided between the paired electrodes and including an emission layer 15 and at least one organic layer in contact with the emission layer wherein the organic layer comprises a fluorescent material having an absorption peak that may be longer or shorter than a peak wavelength of luminescence emitted from the emission layer, as shown in fig. 6 and column 4, ll. 3-37 and column 5, ll. 46-66; furthermore disclosing that the organic layer may include two or more organic sub-layers wherein the fluorescent material is present in one of the sub-layers not in contact with the emission layer.
